

Student Internship Opportunity at Multi Parts Poland Sp. z o.o.

The Faculty would like to inform students about the opportunity to undertake internships at **Multi Parts Poland Sp. z o.o.**, based in Warsaw, Poland.

Multi Parts Poland Sp. z o.o. operates in the automotive aftermarket industry and is involved in the development, manufacturing, and distribution of automotive components. Its areas of activity include fuel systems, engine components, cooling systems, electric pumps, automotive electronics, and engineering projects related to the automotive sector.

The internship program may be of particular interest to students specializing in:

- Vehicle Engineering and Operation,
- Mechanical Engineering,
- Electrical Engineering,
- Mechatronics,
- Project Management,
- Technical Product Development.

At the company's Warsaw office, interns may gain experience in areas such as:

- Engineering and Product Development,
- Project Management,
- Quality Assurance,
- Purchasing and Logistics,
- International Sales.
