

**Timetable for the AUTUMN session 2021/2022**

**Classroom studies at the first level**

**III YEAR**

| Date       |           | Hour          | room          | Subject  |
|------------|-----------|---------------|---------------|--|
| 2022-09-02 | Friday    | 9.00 - 12.00  | 2.19          | Introduction to Diagnostics                            |
|            |           |               |               |  |
| 2022-09-03 | Saturday  |               |               |  |
| 2022-09-04 | Sunday    |               |               |  |
| 2022-09-05 | Monday    | 9.00 - 12.00  | 0.3           | Vehicle Mechatronics (MR)                              |
|            |           | 12.00 - 15.00 | 3.11          | Electric and Hybrid Vehicles Engineering (PE PE)       |
| 2022-09-06 | Tuesday   | 12.00 - 15.00 | 1.10          | Energy Accumulation in Vehicles (PE)                   |
|            |           |               |               |  |
| 2022-09-07 | Wednesday | 9.00 - 12.00  | 0.3           | Navigation of Autonomous Vehicles (EHVE Auton)         |
|            |           | 9.00 - 12.00  | 3.14          | Advanced Control of Electric and Hybrid Drives (PE PE) |
| 2022-09-08 | Thursday  | 12.00 - 15.00 | 3.4           | Fundamentals of Mechatronics Systems Design            |
|            |           |               |               |  |
| 2022-09-09 | Friday    | 9.00 - 12.00  | multimedialna | Combustion Engines Theory (PE)                         |
|            |           | 12.00 - 15.00 | 0.3           | Internal Cobustion Engines (MR)                        |
| 2022-09-10 | Saturday  |               |               |  |
| 2022-09-11 | Sunday    |               |               |  |
| 2022-09-12 | Monday    | 9.00 - 12.00  | 0.3           | Electric Powertrains (MR)                              |
|            |           |               |               |  |
| 2022-09-13 | Tuesday   | 9.00 - 12.00  | 0.3           | Energy harvesting in vehicles (PE PA)                  |
|            |           |               |               |  |
| 2022-09-14 | Wednesday | 12.30 - 15.30 | 3.11          | Project on Electric and Hybrid Drives (PE)             |
|            |           |               |               |  |
| 2022-09-15 | Thursday  | 12.00 - 15.00 | 3.14          | Fundamentals of hydraulic and pneumatic drives (MR)    |
|            |           |               |               |  |
