#### **SUBJECT RULES**

#### Vehicle recycling

Academic year: 2019/2020

Field of study: Electric and Hybrid Vehicle Engineering (B.SC. studies)

#### 1) FORM AND DIMENSION OF CLASSES TO BE CONDUCTED:

No.	Form of classes within subject:	Hourly dimension:
1.	Lecture	30
2.	Auditorium exercises	-
3.	Laboratory	-
4.	Project	-
5.	Computer laboratory	-
6.	Seminar	-
7.	Foreign language	-

# 2) DESCRIPTION OF REQUIREMENTS FOR STUDENTS PARTICIPATION IN THE CLASSES

The student's participation in the lecture is optional.

## 3) DESCRIPTION OF RULES OF JUSTIFYING BY THE STUDENTS THEIR ABSENCE IN CLASS:

With regards to optional form of student participation in classes, there is no need to justify absences from the lecture.

## 4) DETAILED DESCRIPTION OF THE ONGOING CONTROL METHODS OF THE ACHIEVING EDUCATIONAL EFFECTS BY STUDENTS

The control of students achieving educational effects are final tests - two during the semester. The retake test takes place during the exam session of the given semester. These tests reflect the substantive areas that are the subject of the respective stages of the lecture. Tests are evaluated on a point scale (10 points each). The pass condition is to obtain over 50% of the points from each of the tests.

5) PROCEDURE AND SCHEDULE FOR PASSING OF CLASSES, INCLUDING: METHOD AND PROCEDURE FOR ANNOUNCEMENT OF THE RESULTS OF EVALUATION OF REPORTS, EXAMS, TESTS, PROJECTS AND OTHER FORMS OF ASSESSMENT AND RULES OF IMPROVING THE RESULTS OF THIS EVALUATION

Two written tests take place respectively in the middle of the number of classes and at the last lecture in the semester. Students are informed about the results of tests at next week lecture or during the office hours. Result grades are entered into the USOS system.

6) INFORMATION ON THE POSSIBILITY OF STUDENTS USING AUXILIARY MATERIALS DURING TESTS:

Students cannot use any auxiliary supporting materials.

7) DETAILED INFORMATION ABOUT THE SUBJECT SCORING CONDITIONS (DESCRIPTION OF THE SUMMARY EVALUATION METHOD):

The grade is determined based on the results of two tests (from each test you can get from 0 to 10 points). To pass it is necessary to obtain more than 50% of the points (**P**) possible to get (maximum 20 points), meeting condition of getting more than 50% of the points from each test (over 5 points). The final grade (**O**) is determined as follows:

$$\mathbf{P} \le 50\% \qquad \mathbf{O} = 2,0$$

$$50\% < \mathbf{P} \le 60\% \qquad \mathbf{O} = 3,0$$

$$60\% < \mathbf{P} \le 70\% \qquad \mathbf{O} = 3,5$$

$$70\% < \mathbf{P} \le 80\% \qquad \mathbf{O} = 4,0$$

$$80\% < \mathbf{P} \le 90\% \qquad \mathbf{O} = 4,5$$

$$\mathbf{P} > 90\% \qquad \mathbf{O} = 5,0$$

8) ADDITIONAL INFORMATION:
